Results-driven Project Manager with 9+ years of experience in full-stack development, team leadership, and project management. Skilled in overseeing remote teams, managing project lifecycles, and delivering scalable, high-performance solutions using PHP, Node.js, Laravel, and React. Proven ability to streamline workflows, optimize resources, and drive successful project outcomes. Passionate about fostering collaboration, improving system architecture, and ensuring on-time, high-quality software delivery. Seeking a remote leadership role to drive innovation and deliver impactful technology solutions.

Skills

- Project & Team Management: Agile (Scrum, Kanban) | Jira, Asana, Trello, ClickUp | Resource & Time Management (Clockify, RescueTime) | Team Collaboration (Slack, Skype, Zoom) | Remote Team Leadership & Communication
- Technical Expertise: System Architecture & Design | Monolithic & Microservices | API Management (REST, GraphQL) | Cloud Services (AWS, DigitalOcean, VPS) | DevOps & Deployment (Docker, Apache, Nginx, CI/CD)
- Software Development: PHP (Laravel, CodeIgniter) | Node.js (Express, Fastify) | Python (FastAPI, Flask) | Frontend: JavaScript (React, jQuery) | UI/UX (Figma, Tailwind, Bootstrap) | Databases: MySQL, NoSQL | Testing & QA: Selenium, Postman, JMeter
- Messaging & Workflow Automation: RabbitMQ, Kafka

Experience

Tech Lead Officer Onest Tech LLC [2.5 y] *Banani, Dhaka, BD* 09/2022 - Current

- Led a remote, cross-functional team of 36 developers across different time zones, overseeing technical decisions and architectural strategies in PHP, Node.js, Python, JavaScript, React, and databases.
- Managed full-stack application development and deployment, driving a 10% performance increase using PHP, Node.js, React, and MySQL/NoSQL.
- Directed the architecture and maintenance of RESTful APIs and GraphQL endpoints, improving data retrieval and system efficiency.
- Led design and implementation of 4 complex systems, reducing downtime by 35% and improving scalability by 15%.
- Implemented CI/CD pipelines and Docker, reducing deployment time and post-deployment issues by 10%.
- Championed Agile methodologies remotely, effectively coordinating teams in different time zones, streamlining project timelines, and boosting client satisfaction.

Project Manager Onest Tech LLC [1.8 y] *Banani, Dhaka, BD* 01/2021 - 08/2022

- Led cross-functional teams of 30+ members across multiple time zones, ensuring 95% on-time delivery and 20% improvement in team collaboration.
- Managed projects using Agile, Scrum, and Kanban, improving project efficiency by 15% and client satisfaction by 18%.
- Communicated goals, progress, and requirements to stakeholders, maintaining 98% stakeholder alignment and transparency.
- Identified and mitigated risks, ensuring 100% on-budget delivery for 10+ projects.
- Strengthened relationships with clients and sponsors, achieving a 25% increase in repeat business and referrals.
- Optimized resource allocation, reducing project bottlenecks by 12% and improving overall efficiency.
- Proficient in Microsoft Project, Jira, Trello, and Asana, ensuring streamlined project tracking and execution.

Project Manager Spondon IT [1 y] *Panthapath, Dhaka, BD* 06/2020 - 01/2021

- Define project scope, objectives, and deliverables, aligning requirements using PHP, Node, Python, and relevant technologies
- Allocate and manage technical resources efficiently, identifying and mitigating risks using MySQL, NoSQL, MongoDB, and Rest API.
- Facilitate collaboration between development and operations teams, bridging the gap by leveraging Git, CI/CD, and Docker.
- Implement infrastructure management through code, ensuring consistency with cPanel, WHM Panel, VPS, Apache, and Nginx.
- Implement robust monitoring solutions, tracking performance and detecting issues using AWS, EC2, and security measures.

Senior Software Engineer Spondon IT [1.6 y] *Panthapath, Dhaka, BD* 01/2019 - 06/2020

- Lead the development using PHP (Laravel, CodeIgniter) and JavaScript, jQuery, Ajax for both front-end and back-end components.
- Manage and optimize databases, including MySQL and NoSQL, ensuring efficient data storage, retrieval, and performance.
- Design and implement RESTful APIs and GraphQL endpoints to facilitate seamless communication between various application modules.
- Utilize HTML, CSS, SASS, Tailwind CSS, and UI/UX design principles (Figma) to create visually appealing and user-friendly interfaces.
- Architect scalable systems, considering load balancing, caching strategies, and database optimizations to handle increasing user loads.
- Configure and maintain web servers Apache on cPanel, WHM Panel, VPS, ensuring high availability and security.

Software Engineer

United Group [1.6 y]

Gulshan-2, Dhaka, BD

07/2017 - 12/2018

- Led end-to-end software development, from designing scalable database schemas using MySQL and NoSQL to implementing server-side logic with PHP frameworks like Laravel and CodeIgniter.
- Developed responsive and visually appealing user interfaces using HTML, CSS, and Bootstrap, enhancing overall user experience.
- Designed, developed, and maintained RESTful APIs to ensure seamless communication between front-end and back-end systems.
- Managed and optimized database systems, including data modeling, indexing, and query performance tuning, primarily with MySQL.
- Enhanced web application interactivity and user engagement using JavaScript and jQuery, ensuring a seamless and dynamic user experience.

Junior Software Engineer

United Group [1 y]

Gulshan-2, Dhaka, BD

06/2016 - 06/2017

- Developed, tested, and maintained software applications using PHP, JavaScript, and MySQL.
- Designed and optimized relational databases using SQL for efficient data storage and retrieval.
- Built and maintained user-friendly interfaces and interactive web applications using HTML, CSS, Bootstrap, and other front-end technologies.
- Developed server-side applications and APIs using PHP, Node.js, and related technologies to enhance system functionality.

Software Engineer, Intern

IWFM, BUET [6 months]

Polashi, Dhaka, BD

01/2016 - 06/2016

- Assisted in designing and developing user-friendly web interfaces using HTML, CSS, Bootstrap, and JavaScript to enhance user experience.
- Collaborated with the development team to customize and modify WordPress themes and plugins, ensuring alignment with project requirements.
- Assisted in designing, implementing, and optimizing MySQL databases to support web applications efficiently.
- Created technical documentation, including code comments and project reports, to facilitate knowledge sharing and project tracking.

Education

Bachelor of Science

Stamford University Bangladesh

Dhaka, BD

04/2012 - 04/2016

- Major in Computer Science & Engineering
- CGPA 3.73 [Merit Scholarship: Awarded for 3 trimesters]

Projects

- HRM - Human Resource Management System [Microservices, Node.js, Go, Python, Kafka, Hystrix, ELK, Redis, Docker - Ongoing]
- LMS - Learning Management System [Laravel, jQuery, Bootstrap, RestAPI]
- CRM - Client Relationship Management System [Laravel, jQuery, Bootstrap, RestAPI]
- Ecommerce - Online Marketplace with Multi Vendor [Next.js, Node.js, MongoDB, Laravel, MySQL]
- ExpenseTracker - Mobile Expense Tracking [Laravel, HTML, Tailwind CSS, Firebase, Flutter]
- Social Media Dashboard [React.js, GraphQL, Node.js, MongoDB]

Certifications

- Google Project Management Certificate – Completed (January 2025)
- Agile Project Management – Coursera (University of Maryland) – Completed (December 2024)
- Introduction to Project Management – Alison – Completed (November 2024)
- Scrum Master Fundamentals – Scrum Training Series – Completed (October 2024)
- Project Management Principles and Practices – Coursera (University of California, Irvine) – Completed (September 2024)

Others

- Agile Project Management Bootcamp – Coursera (May 2015)
- Remote Project Management Tools Bootcamp – Udemy (Aug 2016)
- Excellence in Project Management, Onest Tech LLC (2022)
